## WORK EXPERIENCE

**Product Manager (Provider Experience), WorkSafeBC** | Apr 2024 – Present

- Growth/adoption
  - Built 5 features that reduced user journey from 11 to 5 steps to scale digital invoicing experience to key provider groups achieving 60% of invoice submissions digitally ~6 months after launch & saving \$200K in operational costs.
  - Applied design/UXR methodologies that support valid form submissions & minimal user cognitive load to decrease phone calls by 30% & improve NPS scores by 25%.
- User authentication platform risk
  - Led critical replacement of decommissioned government-provided authentication system to ensure uninterrupted access to referral & claims data for 1800 healthcare providers.
  - Achieved 0% downtime, 85% user migration pre-deadline, and 92% login success rate post-launch.
  - Coordinated resources from marketing & comms to deliver targeted provider outreach & support workplans, reducing transition friction across the platform.
- Integrated generative UI prototypes built with Lovable into discovery workflows, accelerating user feedback cycles; & GitHub Copilot for assisted coding, reducing feature delivery time from proposal to production by 40%.
- Innovation (0-1 initiatives to inform product roadmap)
  - Platform/ B2B product - Raised \$80K to drive channel expansion strategy. Drove the development & adoption of our API platform across 5 EMRs enhancing provider experience for 70% of the market & improving operational data through strategic partnerships.
  - Referral Radar – Built AI agents with a mind map interface that visualizes causal relationships to make timely & accurate healthcare program recommendations saving ~ \$20M in claim costs (finalist amongst 29 projects for ‘Team Process Transformation’ org awards)

**Product Manager, Technical Safety BC** | Oct 2021 – Apr 2024

- Data product - Used data modelling to identify 11.70% as the avg. yearly churn rate & launched an internal dashboard identifying churn drivers.
- Retention - Drove growth strategy by deploying an RFM model to inform a multi-channel marketing campaign retaining 78% of high at-risk users.
- Innovation pilot – Designed experiments for a remote inspections app to achieve product-market fit & inform roadmap decisions for growth.

**Strategy Consultant (Intern), University of British Columbia** | Sep 2020 – Oct 2021

Managed a portfolio of clients for 180 Degrees Consulting offering services for

- FTC Solar - Co-authored a policy whitepaper analyzing global photovoltaic strategies across industrialized & emerging economies; identified key drivers, policy barriers, & strategic recommendations to accelerate solar adoption.
- Open Primaries - Designed a cost-effective, data-driven marketing strategy with a toolkit of alternative outreach channels & state-specific implementation plans. Optimized conversion funnels to reduce bounce rate by 37% to double subscriptions.

**Search Engine Optimization Consultant, Convertus** | May 2018 – July 2019

- Drove development & implementation of organic search strategies, boosting performance for over 75+ websites by ~150%.
- Launched a performance analyzer tool to forecast organic search performance with ~85% accuracy & inform SEO strategy (innovation pilot).

## EDUCATION

**Master of Business Analytics,**  
University of British Columbia | Oct 2020 – Nov 2021

Python, R, SQL, Tableau / Power BI, ML, Optimization, Data Visualization

- Customer segmentation & churn modeling
- Demand forecast
- Recommender systems

**Bachelor of Business Administration (Marketing),**  
British Columbia Institute of Technology | Sep 2016 – Jun 2019

## PROJECTS

**Impact classification dashboard |**  
NLP, PowerBI | Jan 2023 – Apr 2024  
Analyzed VOC data with SQL & led MVP of AI-powered PowerBI dashboard to improve service delivery.

## KEY ACHIEVEMENTS

**Speaker – ProductCamp BC | 2025**  
Invited speaker for ‘How Legacy Industries Can Adopt a Product Mindset to Improve Service Delivery’  
— top 15 out of 40 pitches.

**Mentor – ProductBC | Since 2024**  
Mentoring aspiring professionals on product practices & career strategy.

## SKILLS & TOOLKIT

### Technologies

Front-end – Angular | Back-end - .NET, Python Flask, REST APIs | AI - ML, NLP, GenAI

### Data & user analytics

Python, R, SQL, Tableau, PostHog

### UXR Methods

Usability studies, surveys, interviews, A/B tests, wireframing, prototyping

### Others

Miro, Figma, Jira, Azure, Confluence
